SALA CRISTALLI FOR 450 PAX

The upcoming 2020 season underscores the resorts' star power as it adds a new meeting room and a retractable cover of the Forte Arena. Already established as a favorite European venue for conferences, product presentations and innovative car launches, the Forte Village is currently implementing a further expansion of its conference and meeting facilities with the new Sala dei Cristalli meeting space able to host up to 450 people. This new facility, located adjacent to the existing conference center and Hotel Castello, follows on from the opening earlier this year of the similarly glass walled Sky Suite located near the entrance with commanding 360° views across the whole resort, from the mountains to the sea.

SKY SUITE

THE MOST SPECTACULAR MEETING ROOM IN THE MEDITERRANEAN

A spectacular new Rooftop Boardroom located on the highest point of the resort with 360° views across the treetops, pools and sea to the horizon. Ideal for meetings of 30 people boardroom style or 50 people theatre style. This is also a perfect venue for exclusive cocktail parties.

THE ITALIAN NATIONAL FOOTBALL TEAM AND ATP TOUR CHOSE FORTE VILLAGE

At Forte Village we have successfully managed to create a safety bubble, where everyone can fully enjoy a largely unaffected holiday without excessive limitations. This allowed us to host the Italian National Football Team at the end of May 2021, before the unforgettable victory at the European Championships. In addition, last year, in a period when the majority of the most important sporting events in the world have been cancelled or postponed, we hosted one of the most prestigious international tennis events, the Forte Village Sardegna Open, the only ATP tournament hosted in Italy in 2020, after The Internazionali BNL d'Italia 2021.

RENT ONE OF OUR HOTELS EXCLUSIVELY FOR YOU!

What could be better than to have the place to yourself?

Some of our most successful events have been for companies and organisations which have taken over a specific hotel or, at times, the whole resort. Exclusive use gives you privacy and complete control over the environment, where you can personalise everything from the welcome to the merchandising of the area. Besides it creates strong sense of team and family home.

The hotels, independent from each other, are immersed in an unparalleled natural setting and offer different types of accommodation, each with its own personality, to satisfy the most varied expectations and needs. Think of the 5 star Hotel Castello, an elegant 210 room Mediterranean hotel with its own heated swimming pool located close to the beach or to our 4 star properties which feature large private gardens that make each unit a private oasis of peace.
