

WYNDHAM
PARIS PLEYEL

At Pleyel, Paris shifts scale.

Once an industrial and musical district, Pleyel is becoming one of Greater Paris' new centres - business, sport, culture and mobility in one place.

THINK BIGGER, MEET HIGHER.

A station growing with Greater Paris.

Here, the transformation is already visible.

**Cœur
Pleyel** 14 hectares under construction, 162,000 sqm planned including 80,000 sqm of hospitality. A district to work, meet and live in.

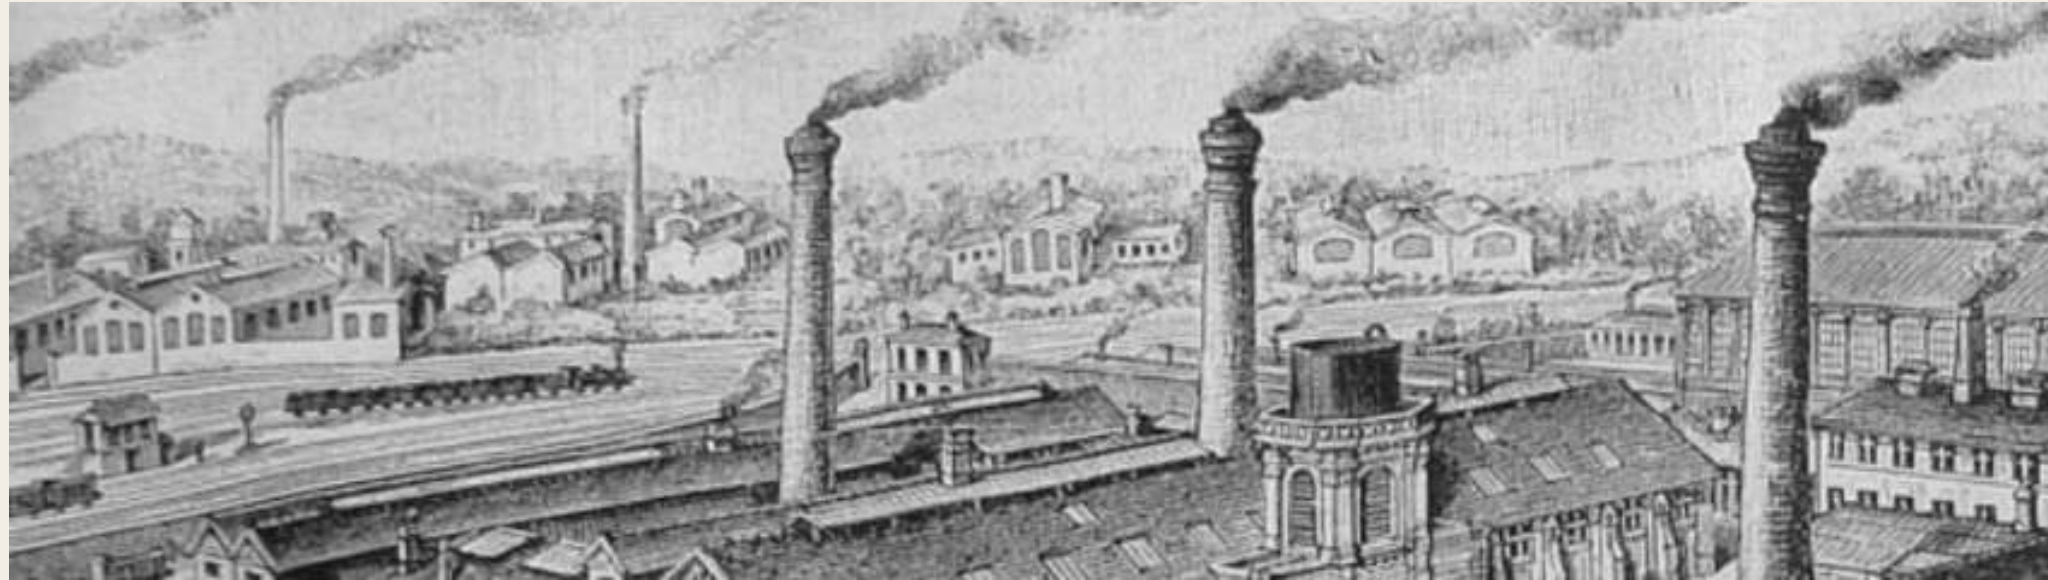

**Pleyel
Crossing** 300m, 38 tracks spanned, 20,000 users a day. A railway barrier turned promenade. A district stitching itself back together.

**Paris 2024
legacy** The athletes’ village in its second life : 2,800+ homes, 6,000 residentsn 6ha of green space. A sustainable, lived-in district.

Pleyel carries music in its name.

From 1865, the Pleyel firm set up its workshop here. 55,000sqm devoted to the piano up to 3,000 instruments produced the following year. A story of innovation, acoustics and French craftsmanship.

Today, the heritage resonates in a new score, that of Greater Paris.

Wyndham Paris Pleyel.

697 rooms, a 10,000sqm convention center and a 40th-floor Skybar : the district's transformation takes vertical form here.

Social, societal & environmental.

The acronym ESG refers to the three crucial dimensions of Environment, Social and Governance within a company. These aspects assessing the longterm viability and ethical integrity of its operations. The tourism sector is the source of around 8% of greenhouse gas emissions, which means that hotel properties are also faced with this pressing challenge they must face. In addition, this sector encompasses nearly 10% of all jobs globally, hence the imperative for companies to bear their responsibility not only towards the environment, but also towards society and their employees.

LET'S TALK ABOUT YOUR EVENT.
